

SEAMLESS FLOORING SYSTEMS FOR MECHANICAL ROOMS

When it comes to mechanical rooms, you need flooring that is durable, provides seamless waterproofing, easily works around all types of drains, and delivers a safe non-slip surface for your maintenance crew. Dur-A-Flex's simple to maintain mechanical room flooring systems come in multiple builds to focus on what is important to you and your facility.

Systems with less installation steps can reduce overall downtime, while more robust systems include the ability to install over green concrete, enhanced abrasion resistance, and UV stability for a seamless flooring solution that will last for years. Common use sites for these systems include **Mechanical Rooms, Server Rooms, Data Centers, Equipment Rooms, and Chiller Rooms.**

Dur-A-Flex provides a variety of seamless resinous flooring options, expert installation, and on-going support so you get a product that stands up to the toughest environments in your mechanical room spaces.

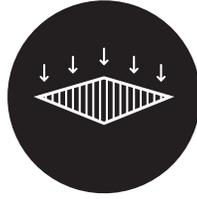

DUR-A-FLEX
INNOVATION FROM THE FLOOR UP

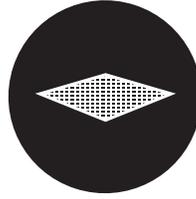

NON SLIP

Textured finishes aid in a safer floor, even when wet

WATERPROOFING MEMBRANE

Stops water from penetrating the surface of the coating and damaging the substrate

VARIABLE INSTALL WINDOW

Coat over green or 28+ day old concrete

DRAIN COMPATIBLE

Works seamlessly around a variety of floor drains

Dur-A-Gard™ MR

A seamless, pigmented flooring system designed for use in light duty/light traffic mechanical rooms consisting of an optional primer/moisture barrier for use over green concrete, an elastomeric waterproofing membrane, a 100% solids epoxy wear coat with an optional non-slip broadcast, finished with a UV stable abrasion resistant topcoat. Dur-A-Gard MR has a nominal system thickness of 36-52 mils.

Dur-A-Gard™ MR is designed to reduce steps for a quick installation and work seamlessly around a variety of floor drains to provide a protective flooring solution where heavy use and color stability are not the top priority.

Shop Floor™ MR

A seamless, non-slip pigmented flooring system designed for heavy duty use in mechanical or server rooms consisting of an optional primer/moisture barrier, a waterproofing membrane, broadcast coats, and a highly abrasion resistant/UV stable topcoat. Shop Floor MR has a nominal system thickness of 1/16" - 1/8".

Shop Floor™ MR is designed to work seamlessly around a variety of floor drains and provide excellent impact and slip resistance for a flooring solution that will maintain aesthetics and stand up to constant traffic.
