

SEAMLESS FLOORING SYSTEMS FOR HEALTHCARE

Healthcare professionals and healthcare facilities are expected to perform at their very best at all times. Regular cleaning and disinfection of healthcare surfaces, including the floors and walls, should be an efficient process with minimal interruptions to your day-to-day activities. Resinous floors and wall systems are easy to maintain and deliver the durability needed to stand up to high traffic and regular sanitization.

Dur-A-Flex provides a variety of seamless resinous flooring options, expert installation, and on-going support so you get a product that stands up to the toughest environments in your healthcare facility.

FAST INSTALLATION

Quick cure options for faster return to service and installation during tight timelines

SAFE & SUSTAINABLE

Textured floors can be adjusted to meet the needs of specific spaces while eliminating the use of harmful chemicals and supporting LEED and other sustainable building programs

EASY CLEANING & MAINTENANCE

Flooring solutions with a minimal maintenance regimen last longer and perform better over time than alternative sheet style or synthetic tile options

EXCELLENT CHEMICAL RESISTANCE

Seamless flooring designed to stand up to harsh cleaning compounds and common chemicals/fluids found in healthcare facilities
